The Board resolved to approve the building applications under section 235 of the Cantonments Act, 2006 subject to condition that the plan will be released only after Rain Water Harvest Pits are made in the plots and if no objection with regard to involvement of defence land or State Govt. property or disputed property is received within one week. CEO shall release the

plinth sanction only as resolved under CBR No dated 07th August 2013. On satisfactory completion of plinth, rest of the building plan will be cleared.

The sanction for erection of the building shall be available for two years from the date of issue. If building so sanctioned is not begun within the period, the sanction will lapse. The date of commencement shall be reported / intimated to the Board and completion certificate shall be obtained.

The erection as per plan shall be completed within the period of one year from the date of its commencement. The plan should be adhered to absolutely in every respect.

The sanction is Municipal sanction only and is without prejudice to anyone else right on or to the land.

The date of completion shall be reported as required under section 242 of the Cantonments Act, 2006.

The sanction will be subject to receipt of NOCs from concerned authorities.

CEO also informed the Board of some issues were raised in building applications listed above at no 28, 30, 32, 35, 37, 39, 41 and 43 regarding survey of land and specification of roads in the layout in Sy no.'s 135 and 136, Vijay Enclave, Bowenpally. Board discussed the issues in detail. The Board resolves that the specifications regarding internal infrastructure in the layouts mentioned in the layout byelaws are only indicative and not a bar on the developer to use higher specifications or more eco friendly material based on modern concepts, techniques and requirements. The office always has the discretion to interpret the intent of the Bye laws in such cases. The elected Board members informed the Board that it is good practice to use good quality interlocking blocks in place as they are more eco friendly and allow water to be absorbed better than BT Road. The Garrison Engineer also agreed with the findings of the other members of the Board. However the applicant may be intimated that the Board will not be in a position to take up maintenance to the said infrastructure in future and they have to carry out maintenance themselves.

CATEGORY – UN-GIFTED

[17] To consider the building notices received under section 235(1) of the Cantonments Act 2006 from the following applicants for erection of Building on Plot / Survey Numbers in colonies mentioned against each.

[23] To consider and pass appropriate orders on the appeal under Cantonments Act, 2006 received from Taulava Samaj of Shree Krishna Temple Mutt in Sy.No.74/7, Mahendra Hills, Dhanalakshmi Colony, East Marredpally, Secunderabad Cantonment.

The above society of Shree Krishna Mutt filed an appeal before the Board against the notice U/s. 239 of Cantonments Act, 2006 dated 14th December, 2015 which was issued to stop the unauthorized constructions

in the temple premises, as the said land is falling in 40% open land of Dhanalakshmi CHS i.e. Park land.

The Appeal filed by the Shree Krishna Mutt people was referred to the Board, in its meeting held on 27.02.2016. The matter was discussed in detail and resolved vide CBR.No.30 for inspection of the site and also for affording one more opportunity to the appellant to submit explanation.

In reply to the communication from the office to the above effect, the Krishna Mutt stated that the constructions which are made at site are not new constructions and those are only renovations to the existing old structures constructed several years back.

However, site inspection revealed that the structures are not old as claimed by the Society but newly constructed, especially the Mandapam Hall and the compound wall and room. The open land on which temple is existing is earmarked as 40% open land in the Dhanalakshmi Colony approved layout.

Hence, the appeal is placed before the Board for decision and further action as per the Cantonments Act, 2006.

Resolution:- The Board considered the matter in detail. The representation of the appellants seeking regularisation of the constructions has been discussed.

The Board notes that as per the report and available records, the unauthorized constructions for which the notice u/s 239 was given to the appellants are not old constructions as being contended by them. The Board also notes that no permission has been accorded for construction. The said construction has been made on 40% open land of the Colony and therefore construction cannot be permitted. The Board also notes with concern the continuous acts of unauthorised constructions being resorted to by the appellants. The Board therefore resolves that the appellants may be informed of the same and they may be directed to clarify the discrepancies noted as above. The Dhanalakshmi Colony association / society may also be directed to give their reply as to how these constructions on the 40% land came up. Both the appellants and the colony association shall submit their replies within a period of 15 days. The matter may be brought to the Board in the subsequent Board meeting for consideration and decision on the matter as per the Rules.

1.	SHRI. ALPHONSUS PATRIC CROSS, S/O. SHRI PATRIC THOMAS CROSS	PLOT NO.28, SY.NO.74/5 (PART), IN SANTHOSH CHS, SITUATED AT EAST MARREDPALLY, SEC'BAD CANTT.	GROUN D FLOOR	355.55 SQ.YD S	M. PHANI KUMAR/ K.V.RAMANA RAO

As per the report submitted by the engineering branch the Hon'ble High Court in WP No. 32468 of 2016 vide their order dated 23.09.2016 directed the Cantonment Board to consider the Building Plan application submitted by Shri. Alphonsus Patric Cross and decide the issue of sanctioning the building plan without insisting on the NOC from Airport Authority of India and Tahsildar.

As per the report previously the Board vide CBR No.18 (2), dated. 26.07.2016 resolved to approve one building plan in similar case where the AAI has given '0' height is as under:

“The matter discussed at length and resolved that the building application on Plot no.29, Balamrai CHS, Mahendrahills be approved for Ground Floor only especially due to pronouncements / orders being made by

the Hon'ble High court of Telangana and AP in similar such cases and further resolved that the course of action be informed to Airport Authority of India."

The report further states that the Board vide CBR No.42, dated. 16.05.2016 resolved to approve the building plan in Mahendra hills without insisting the NOC from the District Collector in views of Several High Court orders in Mahendra hills. Relevant lines of the said CBR are as under:

"Considered and discussed the matter in detail. Shri J. Rama Krishna, Elected Member explained the Board that in all cases of building permits, the High Court has been issuing directions to consider building application after obtaining undertaking from the owners of the plot that they will abide by the outcome of Writ Petition pending in the High Court. The Member requested the Board to consider the applications for Ground Floor without insisting on specific court order. Shir Ashok Kumar, DRO, requested the Board to inform the District Collector and obtain his views on the matter. The Board considered and resolved to approve the plans and intimate the same to office of District Collector for his views in the light of the directions of the Hon'ble High Court in similar cases."

Subsequent to the Hon'ble High Court directed referred above dated 23.09.2016, Jt. GM (ATM-NOC) for GM(CIC) of Airport Authority of India forwarded a letter to this office vide their letter No.AAI/HY/ATS-58/NOC-I/2016/8373-75, dated 09.11.2016 stating that the above mentioned Honorable High Court order in WP No.32468 of 2016 (filed by Sri Alphonsus Patric Cross) is against the latest statutory order GSR 751(E) notified vide Gazette No.607 dated.01.10.2015 and therefore requested the board to keep the court order at abeyance, as strict implementation of NOC for height restrictions from Airport Authority of India is a mandatory and pre-requisite before clearing any building/structure plan by Cantonment Board. Otherwise it will be in violation of GSR 751(E).

Subsequently the matter was referred to the Cantonment Legal Advisor vide letter no. 1338 dated 24.05.2017 in response to which the CLA has opined that the application of the applicant should be considered for sanction without insisting on the NOC from Airport Authority of India and District Collector, Hyderabad subject to the fulfillment of the conditions mentioned in clauses (a) & (d) of the letter dated 30.08.2014 failing which the department is liable for contempt proceedings for non implementation of the order passed. The CLA also opined that in case, the sanction accorded by the Cantonment Board for construction of ground floor to the applicant is in contravention of the Indian Aircrafts Act, 1934 and also the statutory

order GSR 751 (E) notified vide Gazette No. 607 dated 01.10.2015, the Airport Authority is at liberty to question the said sanction by approaching the Hon'ble High Court of Judicature at Hyderabad to protect its interests.

Therefore the Board may consider the same and resolve accordingly. The Board may also resolve regarding the course of action in similar matters that might arise in future.

Resolution:- The matter is considered by the Board in detail. The Building plan is sanctioned as per the directions of Hon'ble High Court of Telangana & Andhra Pradesh.

The Board resolved to approve the building applications under section 235 of the Cantonments Act, 2006 subject to condition that the plan will be released only after Rain Water Harvest Pits are made in the plots and if no objection with regards to involvement of defence land or State Govt. property or disputed property is received within one week. CEO shall release the plinth sanction only as resolved under CBR No dated 07th August 2013. On satisfactory completion of plinth, rest of the building plans will be cleared.

The sanction for erection of the building shall be available for two years from the date of issue. If building so sanctioned is not begun within the period, the sanction will lapse. The date of commencement shall be reported / intimated to the Board and completion certificate shall be obtained.

The erection as per plan shall be completed within the period of one year from the date of its commencement but not later than 2 years from the date of issue of sanction. The plan should be adhered to absolutely in every respect.

The sanction is Municipal sanction only and is without prejudice to anyone else right on or to the land.

The date of completion shall be reported as required under section 242 of the Cantonments Act 2006.

The sanction will be subject of receipt of NOC from concerned authorities.

The approval will be subject to verification of requisite NOCs from DEO, SEMO and Airports Authority by the CEO.

The CEO also brought to the notice of the Board regarding a letter written by Tahsildar, Marredpally Mandal, Hyderabad dated 05-06-2017 requesting not to give sanctions in the survey number 74 of Mahendra Hills and to cancel the earlier sanctions given. The elected members Shri. J. Rama Krishna, Shri. K. Pandu Rangam Yadav and Shri. Keshava Reddy informed that in many cases on earlier occasions the Hon'ble High Court has given directions that NOC from the revenue authorities be dispensed with while considering the applications for sanction of Building Plans. They informed the Board that in none of the cases State Govt. was able to convince the Hon'ble Court with regard to stopping of sanction of building plans on the grounds that sanction of building plan is a municipal function and in any case the sanction would be subject to the final decision of the Hon'ble Court in the writ petition pending before the Hon'ble Court. The Board notes the protracted litigation in the said issue and that the Hon'ble High Court of T & A.P. has given several orders directing the Board not to insist on NOC from State Revenue Authorities in Mahendra Hills and that the sanctions issued for building construction by the Cantonment Board would be subject to the final orders of the Hon'ble High Court in Writ Petition bearing No. 19106/2010. The Board therefore has been issuing Building Plan sanctions in the said survey numbers over the years with a rider that the said sanctions will be subject to the final orders of the Court.

The Board resolves that the same position will be continued in future also and that it is not possible to revoke or cancel the earlier issued building plan sanctions in the absence of any judicial pronouncements to that effect as otherwise it amounts to disobedience of the orders of the Hon'ble High Court.

The Board notes that at several places in Mahendra Hills the people applying for building plan sanction are facing difficulties in getting NOC from Airport Authority of India and the State Govt. revenue authorities. Having regard to the directions given from time to time by the Hon'ble Courts in similar cases the Board resolves that NOC of the Airport Authority of India shall not be insisted for building plan applications for only ground floor.

**GRANTING PERMANENT ADVANCE ACCOUNT TO
CANTONMENT BOARD OFFICIALS**

[30] To consider the proposal of granting permanent advance account to certain officials of Cantonment Board.

Due to the expansion of the workload of the Cantonment Board it is felt necessary that the Section Heads and certain other officials should hold permanent advance to cater to regular day to day expenses. As on date even small expenses of a few Hundred rupees also need the approval and vetting

of the CEO, this is adding to the already high work load of the CEO. It is therefore proposed under Rule 58 of Cantonment Account Code 1984 to provide permanent account in cash to the following officials at the rate mentioned against each official.

Sl. No.	Name of the Section Head	Amount
01	Office Superintendent	Rs. 7,500/-
02	Chief Accountant	Rs. 5,000/-
03	Health Superintendent	Rs. 5,000/-
04	Superintendent SWM	Rs. 5,000/-
05	Superintendent Water Works	Rs. 7,500/-

The relevant files are placed before the Board.

Resolution:- Considered and approved to sanction permanent advance as indicated in the agenda side with the modifications that the permanent advance amount with the store keeper and medical superintendent shall be Rs. 15,000/- and that with despatch clerk shall be Rs. 10,000/-. Further resolved that the amounts and the categories of permanent advance accounts holders mentioned in the agenda side may be reviewed by the CEO in consultation with PCB in future.

The elected Board members raised the issue that on several occasions the development works get delayed due to the fact that even small estimates are being brought for the approval of the Board. They contended that this will lead to avoidable delays. Therefore they mentioned that CEO should be authorized to take up works on his own accord without reference to Board up to some limit fixed by the Board. Considering the nature of works that the Cantonment Board undertakes for the benefit of its citizens and also having regard to the requirement of taking speedy decisions and executing works without wastage of time and having regard to the fact that the cost of undertaking development works or procuring of store items is increasing at

a rapid rate, the Board resolves that the CEO may direct the execution of any work or make purchases or undertake any action including engaging of services of individuals or firms etc. up to an amount of rupees five lakhs per each work/purchase/action without reference to the Board. The said amount of five lakhs shall also be the financial limit as mentioned in Section 26 (1) of Cantonments Act, 2006. The said amount will be deemed to be increased by 10% every financial year to accommodate for increase in the cost of execution of works and procurement of material.

**RE-CLASSIFICATION OF THE LAND FROM CLASS-A1 TO CLASS-C
FOR PUBLIC GROUP LATRINE AT TARBUND**

[32] To consider the matter regarding the Re-classification of the land from Class-A1 to C for public group latrine at Tarbund, in Secunderabad Cantonment.

A public group latrine was constructed on vacant land adjacent to Tarbund Civil Area, Bowenpally in Secunderabad Cantonment. The public latrine is situated outside notified civil area and the land is classified as A1 under the management of Army Authorities and is in GLR Sy No.596 in Secunderabad cantonment.

Recently local Army personnel objected the usage of the land for Toilets and requested this office for demolition of the said group latrine. The said group latrine was constructed for the residents of the Tarbund Bazar Area. If the latrine is demolished, it will become a problem to the residents of Tarbund area as there is no other alternative land to construct a new group latrine in that area. Therefore, the Defence land where the existing group latrine situated is required to be re-classified from A1 to C and entrust the management of the land to the Cantonment Board.

The requirement of the land for re-classification of the land from A1 to C is 165'.5"x75'.0"=12,412.50 Sq Ft/ 1154.36 Sq Mtrs.

The Board may recommend the subject matter for re-classification of 1154.36 Sq. Mtrs of land from A1 to C in GLR Sy. No: 596 at Tarbund

Bazar, Secunderabad Cantonment for the purpose of public group latrine and proposals may be forwarded to PDDE for obtaining the sanction from the competent authority in the subject matter.

The relevant papers are placed on the table.

Resolution:- Considered and resolved that a proposal be forwarded to the competent authority for approval.

Col. Atul Rajput, Nominated Member informed that while the proposal can be accepted in principle as it is a general requirement of the public, care should be taken so as to demarcate and request for land in one corner of the said defence land to ensure easy access to the public and least disturbance to the neighbouring army unit. The PCB directed the engineering branch to send a proposal to the LMA as per the above guidelines. The elected members requested that pending this process any repairs required to the existing public toilets should be allowed. The President Cantonment Board agreed to the same.

IMPROVEMENTS IN THE FUNCTIONING OF SARDAR VALLABHAI PATEL CANTONMENT GENERAL HOSPITAL

[33] Sardar Vallabhai Patel Cantonment General Hospital being run by SCB presently is limiting its services to outpatient services and pathology. There is a lot of demand to improve and add to the services being presently offered. Some of the demands include taking the services of consultants in specific specialities like gynaecology, ophthalmology, ortho paediatrician etc., adding to the equipment needed for pathology and diagnosis, taking steps towards making the Hospital fully functional by way of starting inpatient services, operation theatre etc.

All these improvements would entail investing large finances and employment of experts and other technical staff round the clock. At present the finances of the Board are precarious and the Board may deliberate and take necessary steps in order to fulfil the demands of the local population while also keeping in view the financial position of the Board.

Resolution:- The Board considered the matter in detail. The requirements of the Hospital vis-a-vis the financial situation of the Board have been discussed in detail. Shri. J. Lokanadham, Elected Member, mentioned that Cantonment General Hospital has a long history in the service of the needy. He mentioned that the Board should strive towards building up on the legacy and also to improve on it. He suggested that corporate assistance

should be welcomed in order to get funds for the development of the Hospital. The Vice President and other Elected Members also expressed the same. The Elected Members also assured that they will ensure funding from Private Sector and also Government so as to make the Hospital a 24/7 hundred bedded hospital. The President Cantonment Board cautioned the Board members about the perils of creating assets and infrastructure and not catering to the future requirements of maintenance and the cost of employing human resources. He stressed on the importance of sound financial management and the need to balance the limited available resources and the genuine demands of the citizens. After discussion on the issues it is recommended that a committee consisting of the SEMO as chairman and concerned member from ward 8 and an officer nominated by the SEMO as secretary would go through these aspects and present their recommendations to the President Cantonment Board. The committee *interalia* would also recommend on the requirement and terms of payment and work of specialists / technical manpower / other human resources, the route map towards establishment of a full-fledged hospital and the various requirements including equipment etc. On submission of the recommendations of the committee the Board will decide further course of action.

The Hon'ble MP & the Hon'ble MLA informed the Board that they would also help the Board in making arrangements for finances for improvement of hospital by way of providing part of their local area development funds for the said purpose and also by way of getting funds sanctioned from various schemes of the State Government. They assured their fullest support and co-operation for the said purpose.

The CEO is authorised to incur necessary expenditure for improvements to the hospital within the availability of amount in the concerned budget heads.

The Board resolves to implement the said revision and also that such revisions will be implemented by the CEO as and when the Government revises in future.

[49] The CEO informed the Board of the issues in sanctioning building plans in GLR Sy. No 243, Thirumalgherry Village, Secunderabad Cantonment. The CEO informed the Board that the Hon'ble High Court in WA No. 9/2016 vide order dated 29.11.2016 have ordered status quo in all respects including possession, alienation and creation of third party rights etc for land in respect of the same layout. The same was intimated to this office by the Tahsildar vide his letter no. C/1109/2016 dated 13.12.2016. Further the Hon'ble High Court in the same WA No. vide order dated 28.04.2017 refused to interfere with the notice of the Tahsildar under section 7 of the Andhra Pradesh Land (Encroachment) Act, 1905 dated 31.07.2015 directing the petitioners to show cause within 7 days why the appellants should not be subjected to eviction from the land in an extent of Ac18.02 guntas in Sy. No 243 in Thirumalgherry mandal and village. The Hon'ble Court gave a time of 6 weeks for the petitioners to file their reply before the Tahsildar and a time of 4 months for the Tahsildar to pass an order in the matter. The CEO has informed the Board that when the individual plot owners in the layout have applied for building plan sanctions, the office had sought clarifications from the applicants on the above mentioned issues.

Shri. J. Rama Krishna, Vice President, informed the Board that it has come to the notice that Building Plan applications submitted in respect of the layout sanctioned in Sy. No. 243 of Lothkunta in Secunderabad Cantonment were rejected on various grounds despite them being as per the technical requirements of the Board. He further mentioned that in certain cases though the building plans were approved by the Board the final building plan sanction which are to be issued after completion of plinth have not yet been issued.

The CEO informed that the office asked the applicants for building plan sanctions in the said survey number to furnish clarifications on the same. Therefore to say that the said building plans were rejected is not correct. The President Cantonment Board opined that since the matter of the basic ownership of land is being adjudicated by the competent authority on the directions of the Hon'ble High Court, it would be proper to consider all the legal issues. Board also noted that the representative of the District collector was absent for the meeting thereby denying the Board the opportunity of getting inputs from him in the matter. The PCB also requested the CEO to consider the legal issues in the matter and consult the legal advisor if necessary and take further action. The Board agreed to the same and resolved that the matter may be brought to the Board in the next Board meeting.

[50] The Hon'ble MLA informed the Board that the Govt. of Telangana has agreed to fund the creation of sporting facilities like indoor and outdoor stadia in Cantonment. He informed the Board that an official communication to this effect would be sent to the Board through proper channel. The President Cantonment Board and all the members of the Board and the Hon'ble MP appreciated the efforts of the Hon'ble MLA in this regard. Once the amount of funds and the conditions for putting them to use are intimated by the Government of Telangana, the matter may be brought to the Board for finalisation of the plans.

[51] Elected member Shri. S. Keshava Reddy, Shri. Maheshwar Reddy and Smt. B. Anitha submitted letters requesting execution of some developmental and infrastructure related works. The Board however notes that the estimates for the same are not yet ready and available. The Board therefore resolves that the said proposals may be examined at the office and the estimates may be put up to the CEO who may sanction the estimates himself or put up to the Board depending upon the estimated amount.

[52] The elected members requested to approve building plans for plots, house pattas, housing scheme areas measuring less than 100 sq. yards without insisting on the regular conditions stipulated in the bye laws of the Board and CBRs like construction of septic tank, water harvesting pits, setbacks etc. They claimed that in small plot sizes like 50 sq. yards and 60 sq. yards it is practically not possible to leave setbacks as specified in the building bye laws. The CEO informed the Board that as per the present bye laws provision of minimum setbacks and septic tank are compulsory. In case the same are to be dispensed with, modification of byelaws is necessary. The PCB and the Board members requested the CEO to take care of this issue while framing the proposed building bye laws. The PCB also cautioned about mushrooming tiny constructions in the already crowded areas which is likely to result in creating health and hygiene issues. The Board after considering the issue in detail opines that the solution needs to be found to address the aspirations of the citizens for a good house to stay while also addressing the issues of making modifications to the bye laws and to keep the Cantonment clean and free of unauthorized constructions. The CEO is requested to incorporate the same while formulating the draft bye laws.

[53] Shri. J. Rama Krishna, Vice President, requested that some special programme and drives should be implemented to spread the message of Swachh Bharat. The President Cantonment Board appreciated the intent of such a programme. He suggested that the elected members should encourage the Cantonment residents to come forward and contribute in the

cause of Swachh Bharat. He requested the Board members to educate the colony associations and residents about the minimum health and sanitation precautions like using public dustbins, not throwing garbage and litter on the roads and in the nallahs and helping the Cantonment Board in keeping the surroundings clean. The Board agrees for the same and also resolves that periodical drives towards “Swachh Cantonment” be carried out by the sanitation and health departments.

[54] The elected members raised the issue of streamlining water bills and the issue of pending arrears in several individual water connections. The elected members informed that considering the complaints in the issues in billing of individual water connections some suggestions were made by the elected members in their meeting dated 29.09.2015. They requested the Board to consider the proposal of extending the time line mentioned in the minutes of the said meeting from November, 2015 to November, 2016. The elected members also mentioned that in a meeting with the water supply department and the elected members some suggestions were made on 27.05.2017 and requested that action may be initiated as per the said suggestions. The Board resolved that the water supply section would give the minutes of the said meeting to the CEO who will in turn send it to the President Cantonment Board who is authorised to take a final decision in this regard. The CEO informed the Board of the precarious financial situation of the Board and that any shortfall in revenue would adversely affect the plans of the Board in revamping the water supply lines. The CEO also informed the Board members that in case additional water needs to be taken from the HMWS & SB, the Board needs to consider increasing the monthly amount being collected from the individual consumers.

The Hon'ble MP suggested that bill collection points should be provided at all reservoirs and pumping stations to facilitate ease in payment. Elected Member Shri. S. Keshava Reddy, suggested that EPOS machines should be used for collection of bill amounts. The elected members also suggested that distribution of bills and collection of money should be outsourced for the benefit of citizens. The Board agrees to the suggestions mentioned in this para and resolves that the water supply section be authorized to implement the same after taking approval of the CEO. Shri. J. Lokanadham, Elected Member from Ward 8 requested that a collection point be made functional at the circle office in Bollarum for the benefit of the far flung areas like Bollarum and Risala Bazar. The Board resolves that the CEO may implement this for all the circle offices if possible within the constraints of availability of resources and feasibility.

[55] Nominated member Col. Nigel P Haney informed the Board that at several places the drains of the Cantonment Board are connected to the drain lines of MES and due to increase in the discharge from the Cantonment drains, the MES drain lines are not able to take the increased load resulting in damage of the lines and overflow causing unhygienic conditions in the army areas. The elected members while agreeing to the point raised by the nominated member informed that these lines have been laid as per the natural gradient and therefore should not be disturbed. They opined that if necessary the MES lines may be increased in capacity with contribution from Cantonment Board. The PCB directed that the action will be taken by the Station Headquarters to constitute a joint technical team comprising of representatives from the GE and the Cantonment Board to identify such places for further action by the Cantonment Board and LMA.
